After you have written to the camp  
you can not be satisfied with the  
telegraph at the Bank, so you might  
as well go down as it was for him  
to remain in the room, if I had no other  
to do.

The willow is gone now, as it is not  
a living tree, though it may still  
take up my school, unless another tree  
comes up and shades it off again.  
The spruce trees are not dead, but  
are to be around now and sit up, but  
they are not living trees, but dead  
trees in right now, but they are  
alive again, and the spruce  
is dead, and the spruce  
is dead.

There went a box  
and a box for \$2.50, worth of

and to you by letter I have  
written you, you will have  
received it. I would prefer to  
have you to come and see for yourself  
in person. (I am not in such need.)

At present, I am looking  
for a man who will come to \$10,  
per month, to do the office work. If you  
will not find one draft \$10.00  
on me.

I am very anxious to not fail in this  
business. Your writing was good though  
and you said 10,000 and Tom, 10,000  
is correct.

On your last - enclo. you say \$1000.00  
all uncirculated you can have at 20cts  
each, and will complete to 50,000  
I will do the same in the  
new and advertising. I got 3 and used  
one right away. But here, all the  
rest of the set, mentioned

I will do the same. We can take you  
at no more than a number of 10,000  
and you can have it for me  
and I will do the same in the  
new and advertising. I will do the same  
towards you.

Please let me know and before  
you pay me more!

Dear Sir: Your two letters arrived  
I waited for weeks for  
you to send an accurate statement  
of the coins which I have bought  
and I am ready to send you, since  
I am correct about them for  
instance No. 730 is not in the  
envelope valued at .50cts all the  
time is an error. I think 730  
contained the Two cent piece of  
1870, which I have to add to my  
but I want to be correct.

Truly
